

Renewable electricity; production and capacity

: Changed on: 18 November 2025

| | | Topic | |
|-----------------------------|---------|----------------------------------|---------------------------------|
| Energy sources / techniques | Periods | Production of electricity | |
| | | Production without normalisation | Installed installations |
| | | Net production of electricity | Electrical capacity end of year |
| | | mln kWh | megawatt |
| Onshore wind energy | 2022 | 13,134 | 6,131 |
| | 2023 | 17,482 | 6,692 |
| | 2024** | 17,657 | 6,955 |
| Offshore wind energy | 2022 | 7,936 | 2,570 |
| | 2023 | 11,553 | 4,110 |
| | 2024** | 15,182 | 4,748 |
| Solar photovoltaic | 2022 | 16,657 | 17,356 |
| | 2023 | 19,607 | 21,957 |
| | 2024** | 21,822 | 24,772 |
